

STATE AND TERRITORY 911 AUTHORITY STRUCTURES

SINGLE STATEWIDE SYSTEM AND PSAP

State/territory-level 911 authority that owns or operates a single statewide system with a single state-operated PSAP

Washington, DC is an independent entity counted as a "state" for the purpose of categorization. The rest of the states and territories in this category have a 911 authority that is part of another state agency.

SINGLE STATEWIDE SYSTEM, SUPPORTS PSAPS

State-level 911 authority that owns or operates a single statewide system, and funds/supports PSAPs

Vermont operates independently. The rest of the states in this category have a 911 authority that is part of another state agency.

AUTHORITY WITH FULL 911 RESPONSIBILITY

State-level 911 authority with statewide geographic planning/coordination/funding responsibility for full scope of 911

For most states in this category, the 911 function is a full-fledged organizational component of another state agency and works within the context and authority of that agency. However, a few state programs are simply attached to another state agency for administrative support, and otherwise operate independently. In some cases, there is also a separate board or commission that sets policy and exerts decision-making authority.

AUTHORITY WITH SOME 911 RESPONSIBILITY

State-level 911 authority with less than statewide geographic planning/coordination/funding responsibility for full scope of 911

Texas and Colorado operate as independent state agencies. In the parts of Texas outside of the state program's geographic responsibility, regional and/or local 911 authorities have independent responsibility.

AUTHORITY WITH LIMITED 911 RESPONSIBILITY

State-level agency or board with statewide responsibility for a limited aspect of 911 (generally wireless)

All states in this category are part of a larger state agency.

STATEWIDE 911 COORDINATION MECHANISM

Statewide 911 focus or coordination mechanism, but not part of a state agency

Alaska's state 911 administrator resides in a state agency and has coordination responsibility, but no authority. In Missouri, the board is appointed by the Governor and the 911 administrator works directly for the 911 Service Board.

LOCAL OR LIMITED 911 COORDINATION MECHANISM

No or limited state- or territory-level 911 focus or coordination mechanism

The states and territories in this category do not have a 911 authority. 911 is governed at the local level.

STATE AND TERRITORY 911 AUTHORITY STRUCTURES

CATEGORY NAME	DESCRIPTION	STATES & TERRITORIES		ALLOWANCES & EXCEPTIONS
Single statewide system and PSAP	State/territory-level 911 authority that owns or operates a single statewide system with a single state-operated PSAP	American Samoa Guam New Hampshire Puerto Rico	Rhode Island Washington, DC U.S. Virgin Islands	<i>Washington, DC is an independent entity counted as a "state" for the purpose of categorization. The rest of the states and territories in this category have a 911 authority that is part of another state agency.</i>
